

Scope is sponsoring this exciting workshop that is covering:

- Introduction to Asset-Based Community Development (ABCD)
- Examples of ABCD in Action
- How Agencies can use ABCD for the Greater impact and Results
- How to make ABCD work in your neighborhood & Community

## The Power of Asset Based Community Development (ABCD)

This workshop brings a nationally recognized ABCD coach Dan Duncan [hdanielsduncanconsulting.org](http://hdanielsduncanconsulting.org) to Sarasota in December of 2014. ABCD is one of the powerful ways that people are connecting assets within communities around the country. This workshop is for those who believe that community improvement starts with “each of us” and involves “all of us”.

The workshop will introduce concepts of how individuals can stimulate interaction in neighborhoods, organizations and the community. The ABCD principles are simple to apply and can be used by anyone to bring people together around talents, gifts and assets!

Based upon the last two ABCD workshops held here in Sarasota we expect approximately 75 to 100 participants at the day-long event, to be held on December 19<sup>th</sup> 2014.

### A range of sponsorships are available:
